Product Setup

Supply Chain Budget Forecast SKU? *: No

Business Area *: Kellanova

Select Business Area

Form Type *: Display

Case, Display or WIP (Work In Progress/not sold to customers).

Product Country *: US - United States

Select the country that owns the new item being created.

Product Type *: Shipper

Expand the blue section for help in selecting the right type.

Is this a Pringles product? *: No

Drives logic in the form.

Is this an RX Product? *: No

Drives logic in the form.

SAP Material Number: 000000003800030438

Internal Kellogg # Assigned by Masterfiles.

Project Type *: PWR

Project Name or Number *: 2024-390

PDR and SCR is text (ex Tasty), PWR is numeric (ex 2020-123) and KUBIC can be either.

Brief Product Description *: RKT HOMESTYLE CHOCOLATE CHIP AFH SHIPPER

Form Name - Do not include quantities in case the scope changes, as the form name will not be able to be changed. Max 40 characters

Brief Project Overview *:

Launch Counter Unit to support the launch of Homestyle Chocolate Chip Bigger bar in AFH:
-20ct Counter Unit
-10ct Homestyle Original 3800028072
-10ct Homestyle Chocolate Chip 3800030324

This Counter Unit will replace the current active Homestyle Counter Unit we have 3800028072

Be as detailed as possible and include flavor, package size and case size if known. These details can be updated if they change.

Product Determination Questions

Approved to sell via Ecommerce?: Yes

Canada is always NO. Answer yes if this item is approved for sale on our CUSTOMERS' ecommerce platform, or is DTC/Direct To Consumer, where the item is intended for sale on KELLOGG'S ecommerce platform.

Is product designated to one customer?: No

Answer yes if the new item is meant for sale to one customer (i.e. Walmart). This information will be used by the Data Sync team for item publication to customers. (CUSTOMER_SPECIFIC)

Designated Customer Name:

Required for Data Sync in order to ensure the item is published only to this customer, versus all customers. (CUSTOMER_NAME)

Include Designated Cust. in Material Desc?:

Answer yes if the customer's name should appear in the product description in SAP.

Is this an Export Product?: No

If this new item is produced in the US, Mexico or Canada, but sold in another country (ex. UK), select yes.

Data Sync(GDSN)?

Y

Leave as yes, unless there are special circumstances and you don't want the item to go out to Customers via Data sync.

Build SKU Using Existing Package UPCs?

No

This field should be locked and defaulted based on the setup type chosen.

Is this item owned by Away From Home?

Yes

Drives logic in the form.

Data Sync(GDSN)?

Y

Leave as yes, unless there are special circumstances. This controls whether the item is sent out to Customers via the Data Sync process.

Product Details

Material Group *
SHIPPER
Key used to group together materials with the same attributes.

Material Group 1 *
40 PWS
Derived from Country and Brand. Used to identify the Commercial Category.

External Material Group *
CONVENCE
Channel Owner. Kashi, RX, Bear Naked, Pure Brands are always KASHI.

FERT Type *
EVERYDAY
Required for all FERTs, this field is used in the Inventory Write Off process. It identifies what type of FERT the record is.

Pack Type Use *
SHIPPER
Retail = Grocery; Specialty = Bowl, Breakfast Kit, etc. This field is used by Away From Home, and is used to populate the Z1 Description.

1st Arrival Date
Required Field for Canada SKU's only. Date which product arrives at the customer, which is one week past First Ship Date and a Thursday.

1st Ship Date
01/06/2025
US - Must be Monday; CA - Must be Sunday. Date when product is first shipped to customers.

Pricing Validity Date
01/05/2025
Always a Sunday (one day before First Ship). This is the date from which the ZBAS/Red K pricing condition is valid.

Planning Variant *
BASE MATERIAL
SAP can only have one Base Material between items that share package UPC's. This field is used by EDI to determine the Base Material on orders.

SKU Type *
PERMANENT
Provides product life cycle data for different reporting purposes.

Stop Ship/Target Discontinuance
Date when product is targeted for discontinuance. Valid only for items with a SKU Type = Limited.

Remarket Date
Date used to trigger when items should be added to the remarketing workstream.

Specialty Channels Field Category *
BARS-TREAT BARS
Used by Away From Home for reporting purposes.

Is this a SKU to SKU Transition? *
No
If the new item is going to replace an existing item, this field would be = Yes.

Conversion Case Code
This field will open up for population if the answer to "Is this a SKU to SKU Transition" question is Yes. Used in reporting.

Conversion Date
This field will open up for population if the answer to "Is this a SKU to SKU Transition" question is Yes. Used in reporting.

OTG Type
"On the Go" Type. Used for finance and demand planning reports by the BW team.

Single Serve
Additional descriptor to define the type of single serve item. Used for reporting purposes only.

Proposed Red K Price
This is the proposed initial Red K Price. It is not the final Red K Price.

Proposed Red K Currency
Select USD or CAD

Max Storage Period/Ship Life *
195
Minimum Shelf Life @ Customer. The longest amount of time allowed for storing the material.

Total shelf life
305
Total days of product life until expiration. Hover over "DISPLAY TOTAL SHELF LIFE HELP" for more information for Displays.

Promotion

Is this item associated with a Promotion? *
No
SubLabel

Promotion Description
Only required if the item will have promotional packaging (ex. Back to School). Used in the product description.

Promo Short Description
Used in the product description.

Business Unit for Promo
Will open up for population if a Promotion is selected. Should correspond to the Business Unit above.

Royalty Product Type
Required for all FERTs with Licensing Agreements.

Royalty Licenser Abbreviation
Used in the product description.

Additional Packaging for Launch

Packaging Components

Packaging Components - Please populate with all and only the packaging components which this manufacturer provides. Please populate the components that have requested new UPC's and state 'requested new' in the Knumber column. Coman Finance uses this information to develop a Bill of Material for copackers. For example, If a WIP item uses a film, the film component belongs on the WIP New Item Form. Please do not populate on both the WIP and the repacked good sku form. Stretchwrap and glues are excluded. Liner Knumbers are needed. Please consult Packaging Procurement for the current/correct nine-digit Knumber with variant.

Add new item

Component K#	Component Description	Unit of Measure	Number Required per UOM	Dieline	Supplier	Print?(Y/N)	Add to BOM?

Manufacturing Locations

Instructions

Producing Plant(s) is the location where the food is processed. The packing location should be completed if the SKU has been packaged at a location other than the processing location. Repacked should be completed if item is repacked at another location to produce the SKU(fert) that is requested. Please provide all line numbers even when processed and packaged in one location. If an allergen is introduced, please indicate where in the next line item or populate NA. If externally produced, choose Kellogg Owned if there is an SAP BOM, or Non Kellogg Owned Materials if there is not.
